

## **ANNOUNCEMENT**

**The Marines will be landing at the Aviation Museum of NH on July 13, 14 and 15 to celebrate the Centennial of Marine Aviation. The Museum will host the Marine Corps League which is planning displays and events.**

**There will be tables in the Museum with Marines (active or retired) describing stories and details of their experiences, covering the various times of Marine Aviation from the early days through the World Wars, Korea, Vietnam and the current mideast conflicts.**

**The planners hope that Marines who are members of NHAHS will be present during the weekend. Any Marine having or knowing of items that would be especially significant in displaying Marine Aviation history should let the planners know if their items could be put on temporary loan for display during this event. If you can offer assistance with significant artifacts or photos, please pass along the details of what you have to Chuck Gerhan via e-mail at: [candpgerhan@mindspring.com](mailto:candpgerhan@mindspring.com).**

**Semper Fi.**
